

To the attention of Haaretz journalists and workers,

As a group of journalists who encourage the coverage of peace initiatives and press freedom, we condemn Israeli government sanctions against Haaretz. We strongly advocate in favor of the newspaper's right to inform freely and independently on Gaza and all current issues.

Our group calls on the Israeli government to immediately end its sanctions against Haaretz. At the same time, we urge Israeli prime minister, Mr. Netanyahu to stop killing journalists in Gaza and stop targeting media independence and pluralism.

The cause of peace needs the voice of critical media, a free and independent coverage of the genocide and all atrocities occurred in Gaza, the West Bank and the whole area affected by Israeli attacks.

Sincerely,

Joan Maria Morros
